

Galgotias University achieves greater recognition and awards

GALGOTIAS UNIVERSITY continues to triumph in its run for winning awards and recognitions. The university was top-ranked as the Best Indian University (Private) for excellence in Academics & Global Linkages and for being among the top institutions in India for placements at the DataQuest Cybermedia ICT Awards recently held in Delhi. Galgotias University was the only institution recognised at the awards, which are essentially reserved for elite corporates and individuals in the ICT space. The university was feted at the awards by Shri Narendra Modi, for differentiating itself from other universities in terms of its global-level academics and international pedagogy.

The latest India's Best Colleges India Today-Nielsen Survey features Galgotias among the country's top institutions. The India Today-Nielsen Survey is the country's primary higher education ratings guide and serves to steer the discourse on education development and trends. Re PunjabColleges.com latest DataQuest T-School Survey 2014 top-ranked Galgotias University among leading universities in India for engineering education – ahead of several leading NITs.

The recent The Times of India-Nielsen B-School Survey 2014 has ranked Galgotias among the top B-Schools of India. Galgotias was also recently awarded Asia's Fastest Growing Private Education Institute at the WCRC Leaders Asia Excellence Summit 2014. KPMG in India were advisors and evaluators to the prestigious awards.

Suneel Galgotia, Chancellor, Galgotias University said, "We have taken great care to lay down education processes that effectively function as intellectual capital generation systems. Top corporates and the leading media continually recognise the excellence of Galgotias University's world class education. We are ranked higher and higher every year by leading media. Our students consistently win accolades at technology and innovation events at NASA, USA and in several national forums. Ours is a teaching-learning environment of tremendous richness and depth with world-class faculty, industry-guided courses that use excellent up-to-date syllabi, international pedagogies and infrastructure comparable to the world's best. Industry-connect is the engine of the entire learning experience at Galgotias University."

Galgotias University's excellent processes also emerge from tie-ups with several of the world's pre-

mium universities and institutions such as Georgia Tech (one of the world's top 10 T-schools), Goethe University, Anglia Ruskin University and Purdue University. These collaborations help all stakeholders evolve deep, contemporary syllabi and access the finest teaching pedagogies and infrastructure. They also enable faculty, students and researchers to work together on international platforms, in addition to faculty and student exchange.

Galgotias University's world-class faculty is one of the key drivers of global quality processes and academic rigour. Drawn from the finest universities and institutions of Europe, the US, Asia and India, the senior faculty members bring in their deep knowledge of the finest pedagogies, education processes and methodologies, experience in research and an easy familiarity with end-to-end industry integration.

Concludes Suneel Galgotia, Chancellor, Galgotias University: "Our vision is to create Indian higher education that is excellent enough to stand and be counted among the world's best."
